# PURCHASE ORDER AND DELIVERY ORDER

## For Evaluation Purposes Only (remove with TRIAL key)

### 2) Create DO based on Invoice

- In an Invoice, create a button “Create Delivery Order”

Suggestion of placement button for “Create Delivery Order”

When button is clicked all the information details should be taken from the invoice.

### 3) Create DO based on PO

Process Flow

# PURCHASE ORDER AND DELIVERY ORDER

## For Evaluation Purposes Only (remove with TRIAL key)

- In PO create a button “Create Delivery Order”

The screenshot shows the JsuitesCloud POS interface. On the left is a sidebar menu with options like Dashboard, Sales, Stock, Job Sheet, CRM, File Manager, Project, Accounts, Promo Codes, Data & Reports, Miscellaneous, E-Commerce, HRM, FWMS, and Scheduler. The main area displays a 'Purchase Order' form for PO#1002. At the top of the form, there is a row of action buttons: 'Edit Order' (orange), 'Make Payment' (green), 'Send' (blue), 'SMS' (blue), 'Print Order' (green), 'Public Preview' (blue), 'Change Status' (green), and 'Cancel' (red). Below these buttons, a red rectangular box is placed on the left side of the form, indicating the suggested placement for a 'Create Delivery Order' button. The form itself contains the JsuitesCloud logo, the company name 'JSOFT SOLUTION SDN BHD', and a 'Bill From' section for 'Mr Ryan' with contact details. To the right, it shows 'Order Date : 31-10-2023', 'Due Date : 31-10-2023', and 'Terms : Term & Condition'. At the bottom, there is a table with one item: 'Headphones' (white headphones) with a rate of MYR 5.00, quantity of 3.00, and a total amount of MYR 15.00.

#	Description	Rate	Qty	Tax	Discount	Amount
1	Headphones white headphones	MYR 5.00	3.00	MYR 0.00 (0.00%)	MYR 0.00 (0.00%)	MYR 15.00

Suggestion of placement button for “Create Delivery Order”

When button is clicked all the information details should be taken from the Purchase order.
