- In PO create a button “Create Delivery Order”

The screenshot shows the JsuitesCloud POS interface. On the left is a sidebar with various menu items. The main area displays a 'Purchase Order' form for PO#1002. At the top of the form, there is a row of action buttons: 'Edit Order', 'Make Payment', 'Send', 'SMS', 'Print Order', 'Public Preview', 'Change Status', and 'Cancel'. A red rectangular box is drawn over the top-left corner of the form, specifically over the JsuitesCloud logo and the company name 'JSOFT SOLUTION SDN BHD', indicating the suggested placement for a 'Create Delivery Order' button.
